

SABLEASSENT WHITE PAPER

In today's economy new ideas represent substance for economic growth. Our global economy has become more accessible because of the information age. The need to have more secure business transactions has become more of a challenge, as a result.

It is evident in today's business world that our financial information is dangerously vulnerable to hacking and theft. This generally leaves consumers afraid to transact business using third party systems. As information technology becomes increasingly sophisticated so does the ability to improve the way financial transactions are conducted.

The word "cryptocurrency" represents the ability to move currency (or a measure of value) in such a way that is faster, verified, and without interference. As we embrace this new technology, we want to also have the accessibility worldwide to circulate value within the Black community.

Our community now faces challenges with the access of capital in many forms. Furthermore, the present economy seems to continuously reduce or eliminate systems that were specifically put into place to support and uplift the black community.

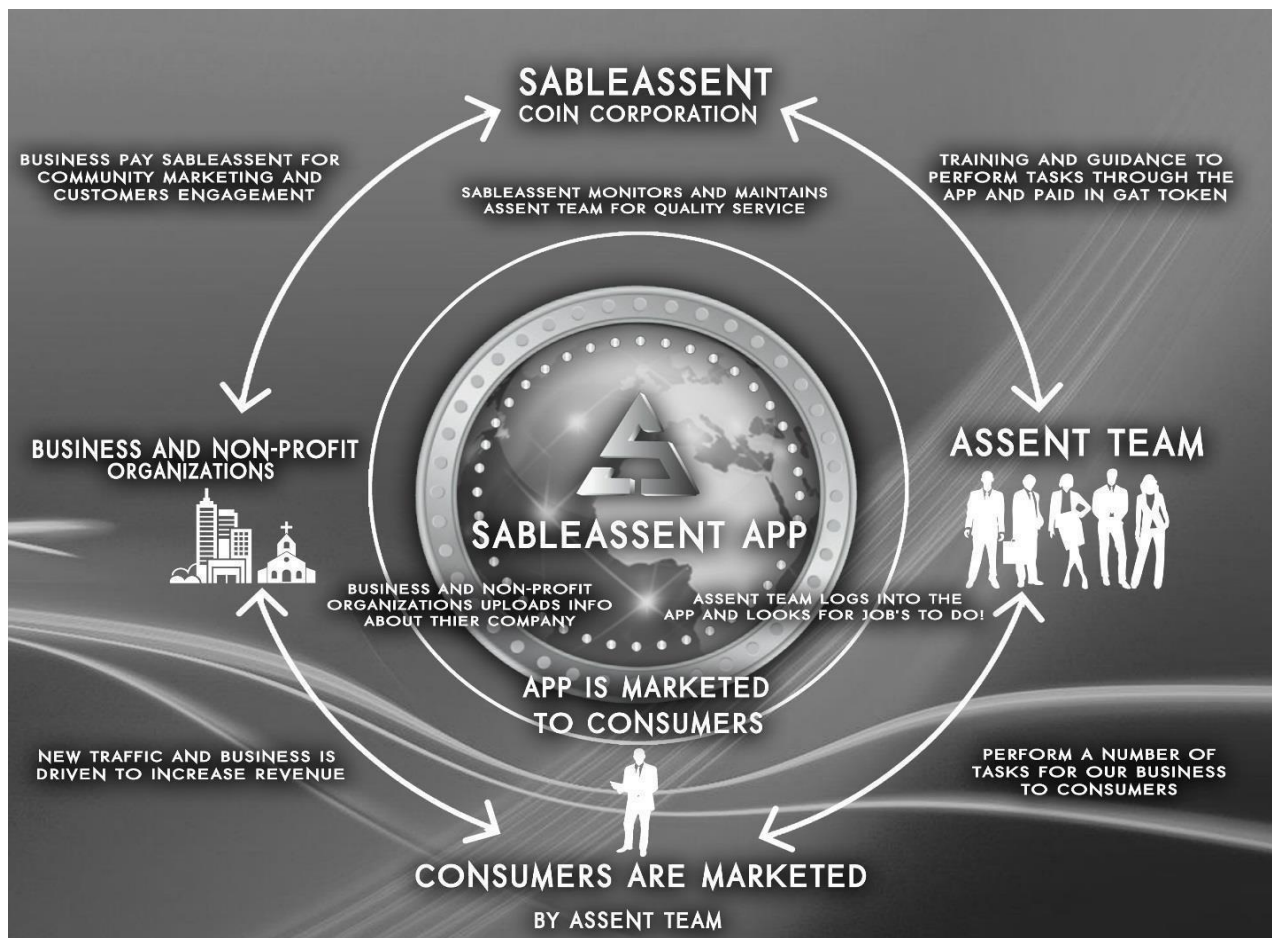

Our new digital ecosystem will provide an avenue to support communities that are being neglected by failed current programs. We are **SABLEASSENT**, the world's Global Digital Ecosystem that Empowers the Black Economy.

Our Sable Coins will be available to circulate amongst a 1.5 billion potential population throughout the entire African Diaspora and the world, which is supported by \$1.40 trillion dollars in spending annually.

Presently, the Jewish dollar circulates within their community between 8 to 15 days, the Caucasian dollar circulates between 6 to 12 days, and the Hispanic dollar circulates between 3 to 6 days, but the African American dollar circulates six hours.

That's The NEED!!!

With the Sable Coins active wallet, we can embrace and support Black consumers, black owned businesses and non-profits globally. This provides residual resources to our communities, Black owned Business and non-profits who are actively serving in their community.

We are a digital ecosystem that embraces and supports the economic systems of the Black community and its consumers, businesses and non-profit organizations. We know and understand that small businesses and non-profit organizations in our community are the fabric of our heritage.

However, this fabric is not as strong as it should be due to the lack of consistent flow of currency which is the life blood of the Black economy. For this reason, we plan to employ people from our communities through a group we call the Assent Team.

The Assent team is our global staff that preforms customer engagement and marketing in exchange for Sable Coins. We will ensuring our coins are used by our community through our technology education curriculum and course study, freelance GIG opportunities application and for products and services in our ecosystem.

What are the overall goals of SABLEASSENT?

- ✧ Give global consumers access to a global network of 51% black owned businesses and non-profit organizations.
- ✧ Connect with non-profits to create business relationships and/or partnerships that would maintain a ongoing digital economy.

- ✧ Provide an easy and safe way for consumers to engage in transactions globally with Sable Coins in a trusted, secure and decentralized global black business ecosystem.
- ✧ Provide a digital or physical Pre-Paid Debit Card for Sable Coins to provide liquidity Worldwide.
- ✧ Provide a user-friendly application for smart phones, tablets, and personal computers to conduct peer to peer transactions using NFC technology.
- ✧ Create interactive trading platforms to enable our customers to trade for other global cryptocurrencies with Sable Coins
- ✧ Facilitate ongoing Sable Coin donations to our non-profits equal to 2% of SABLEASSENT Corporate profits.
- ✧ Sable Coins give access to Tech education and to a unemployed population providing Gig opportunities to work from anywhere.
- ✧ Use the Sable Coins to buy goods and services from our ecosystem and from the black communities and countries.
- ✧ Create blockchain applications for all industries to solve problems.
- ✧ Build a Global Digital Ecosystem to connect the entire African Diaspora to eliminate poverty.

What is the objective of SABLEASSENT?

The objective is to use our platform as a central hub for consumers, businesses and non-profits to work cohesively and exchange resources that will create a global collective economy.

Using the Sable Coins throughout the entire African Diaspora will stimulate the Black economy to create a robust economic system.

We hope to create an exchange of goods between the people, by the people and for the people, and leave no one behind.

Our execution slogan is Each One Teach One.

What are the SABLEASSENT innovations?

The Sable Coin and SAC wallet system will grant unprecedented access to resources in a new collective decentralize economy. The SABLEASSENT ecosystem is a unique collaboration of global consumers doing business in a global black ecosystem to conduct business-to-business or peer to peer transactions.

We stabilize our communities through tech education and GIG/self-employment opportunities. Our mobile wallet allows transactions in a casual format, this improves the way we interact with each other in a decentralized digital way.

How will the SABLEASSENT platform work?

Our platform starts with our SAC wallet which will have resources for consumers, businesses and non-profit organizations. The wallet will include a business and non-profit directory, contacts and a place to maintain and store Sable Coins.

Upon opening a wallet, all users will receive a wallet address and access to global contacts. Our non-profits will be contacted to receive a wallet and gifts in Sable Coins.

When participating in the online platform as a 51% black owned business, those users will receive their own personal listing within our global network database. Larger corporations can choose to use Sable Coins for global business marketing and many other tasks to be carried out by our Assent team.

Our most important feature is our multi-purpose verification security system which starts with the following:

- ✓ Picture ID verification or passport for KYC compliance.
- ✓ A welcome interview and overview that verifies the applications
- ✓ Text message verification

- ✓ Mobile application with participating devices
- ✓ Two-part email verification

Another important feature of our platform is our commitment to creating stronger global communities. The Assent team opportunity is provided to users who want to earn Sable Coins.

They will receive compensation by Sableassent and by partnerships on the Assent team app. We will also partner with strategic industries in black communities and countries to assist with global reach.

Why is SABLEASSENT selling Sable Coins?

Our primary goal is to build a new black economy, and to have a value Coin in our Black communities which generates confidence and trust.

The sale of our Sable Coins provides the necessary tools to build our community and have a solid foundation to provide access to a education platform, freelance employment opportunities, ongoing technology resources for our consumers, businesses and non-profit communities to grow an unemployed Black workforce.

In addition, SABLEASSENT will leverage our Sable Coins for other valuable commodities, products, services and assets to ensure longevity and sustainability for our Sable Coins.

The sale of Sable Coins will benefit the national and global markets by educating and employing thousands of ready, willing, and able Black people.

What are Sable Coins?

As we discussed earlier, cryptocurrency is a way for people to exchange a store a value and perform transactions digitally.

These transactions are performed on an online wallet supplied by SABLEASSENT Coin Corporation. Each decimal in a transaction will represent a percentage of a Sable Coin called a Mack depending on its value.

The value of the Sable Coins is based on the economic uses in the Sableassent ecosystem as a medium of exchange for all products and services in our ecosystem.

The technology of blockchain that the Sable Coin will work within provides peer to peer transactions in a transparency, decentralized and immutable way. You can use the Sable coins with consumers, black owned businesses, non-profit organizations in our ecosystem worldwide.

All willing consumers that chose to be part of a black ecosystem and see the value of a new collective economy that empowers the African Diaspora.

We will have our tokens available on many third party exchange platforms for all of our users to trade openly.

Sable Coins will be used to exchange for education tools, GIG/freelance employment opportunities, products, services and provide Donations in a peer to peer way from anywhere in the world in a matter of minutes.

Who are your SABLEASSENT Corporate officers and marketing team?

What will the Sable Coins be used for and who will get them?

The launch and long term distribution strategy of Sable Coin is based on 5 principles:

1. Security
2. Safety
3. Use Cases in our communities
4. Customer Experience
5. Corporate profits

With this in mind we have created a minted and mining process over a 400 year of the Sable Coins supply and proper distribution on Blockchain technology. The total supply of 1 Billion Sable Coins will be distributed in the following way:

100 million- Early endorsements, Early token holders. Available for purchase now until Launch April 2020

100 million- Token Generation Event for consumer purchase

400 million- 400- Year Supply mined across the node system in our private network 1% per year. The Sable Coin has a 18 digit decimal in-order to have a unlimited supply to fight inflation. Also for consumer purchase.

200 million- Corporate Officers and Assent Team members

200 million- Asset Holdings for Community Improvements across the world

The smallest decimal is called a Mark with the remaining 17 named after the greatest black leaders in world history.

We have an established tech and marketing teams around the world to build this platform. Our daily work will include building relationships large and small companies to provide a presence on our platform and build the trust for the industry.

Our companies ability to provide value and global reach to black owned businesses and consumers along with quarterly donations to our non-profits sets Sableassent apart. In addition to re-educating in technologies and with our Assent team forms a durable platform to create stable communities worldwide.

Therefore, SABLEASSENT will achieve success by increasing information security, personal safety, and quality customer service through the use of decentralized transparent blockchain technology in the form of applications and digital currencies.

Become a part of a Global Movement to Empower Black Communities and Countries to eliminate poverty today with SABLEASSENT Coin Corporation.

Blessings,
